# EOT Ecological Wealth Planning

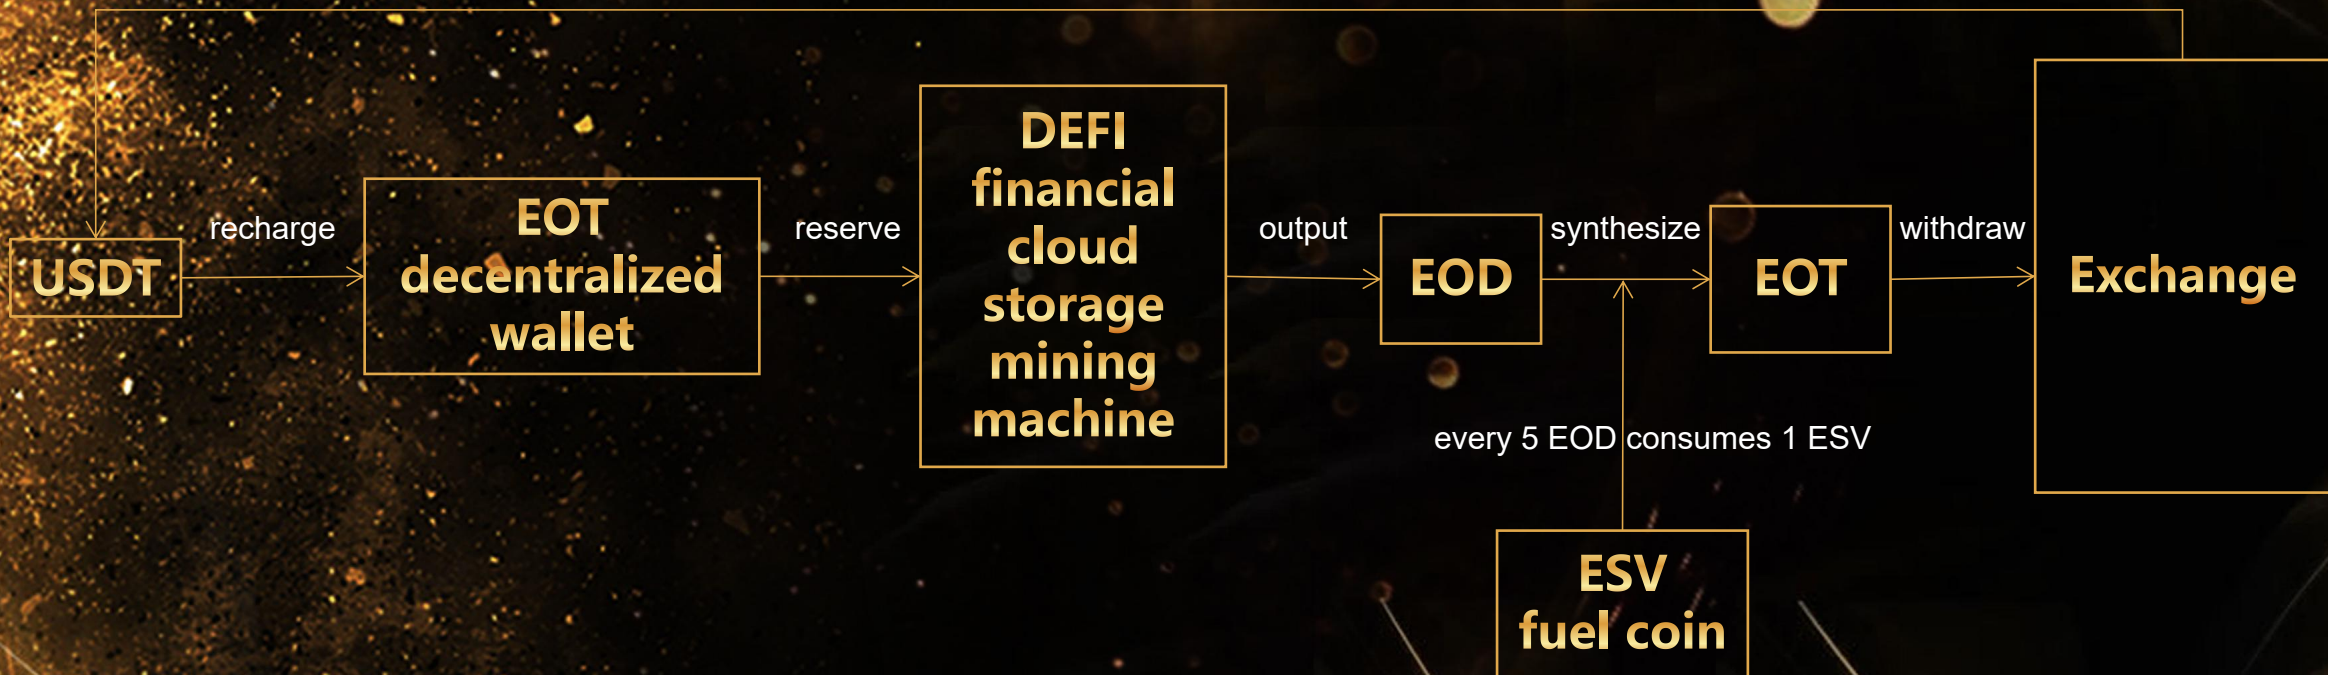

Smart Cloud Computing Power Contract DeFi Finance  
Sustainable kinetic energy mechanism to create a  
trillion-level digital economy

# • Operating procedures

- **Layer2 cloud computing power mining machine**

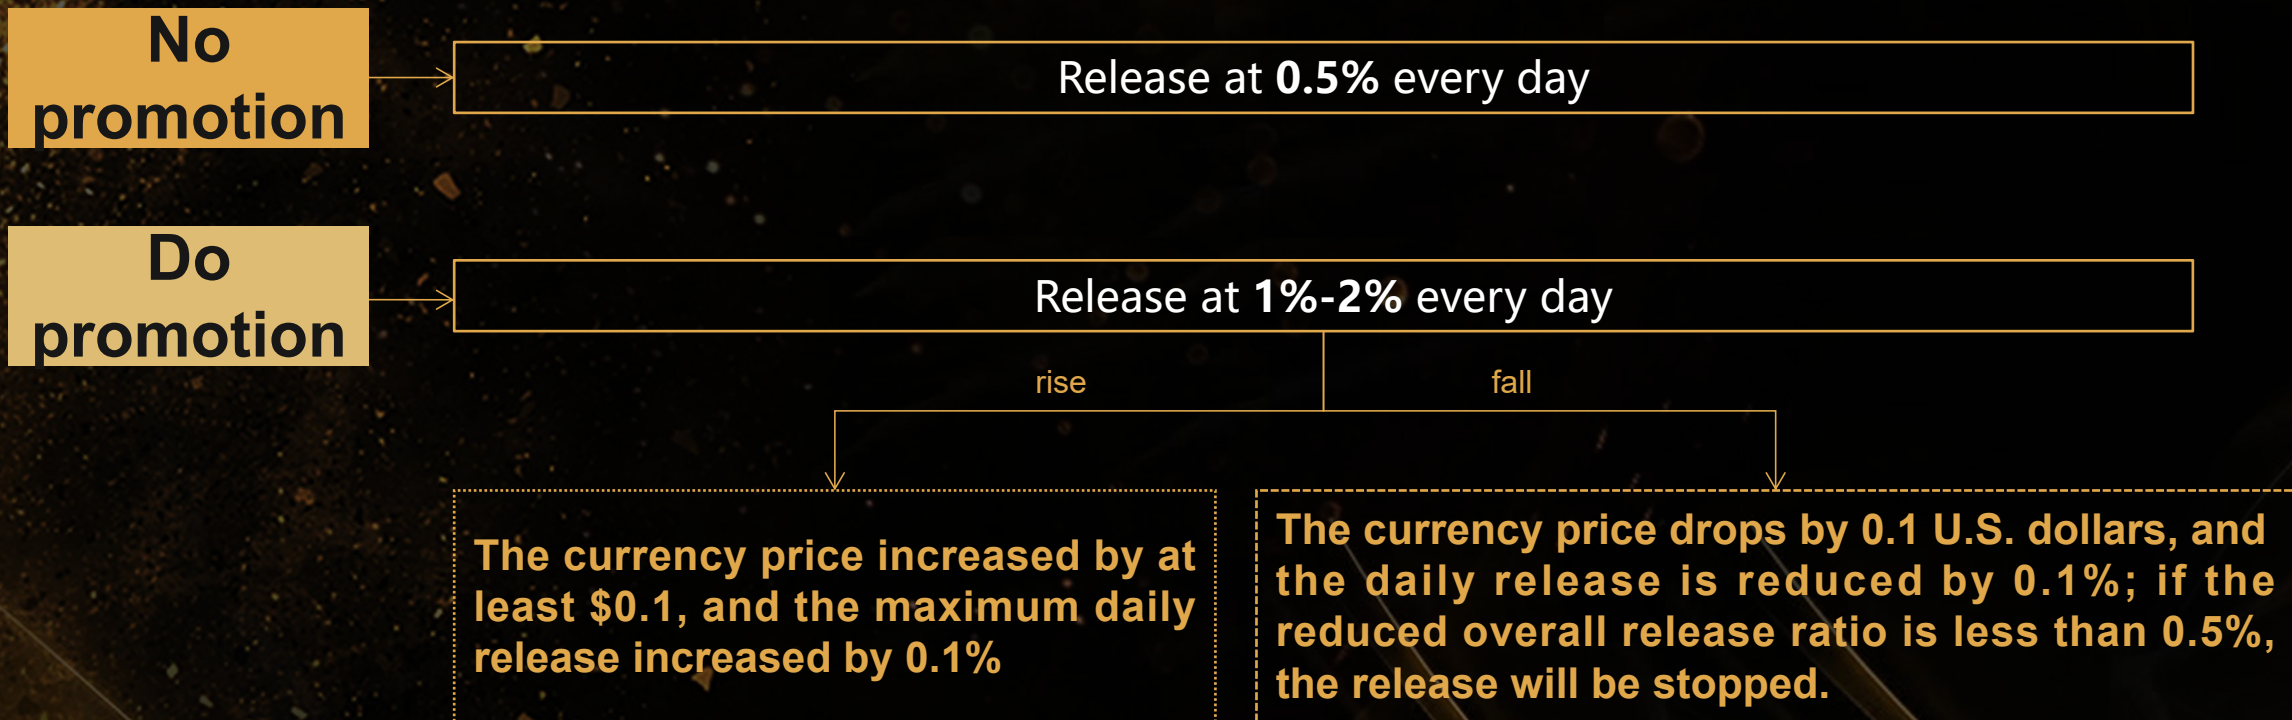

<b>Mining machine type</b>	<b>Amount</b>	<b>Computing power</b>
Micro mining machine	500U	2 times the computing power
Medium mining machine	3000U	2.5 times the computing power
Large mining machine	5000U	2.8times the computing power
Super mining machine	10000U	3 times the computing power

- **Personal computing power**

*Personal computing power is released at 0.5%-2% every day*

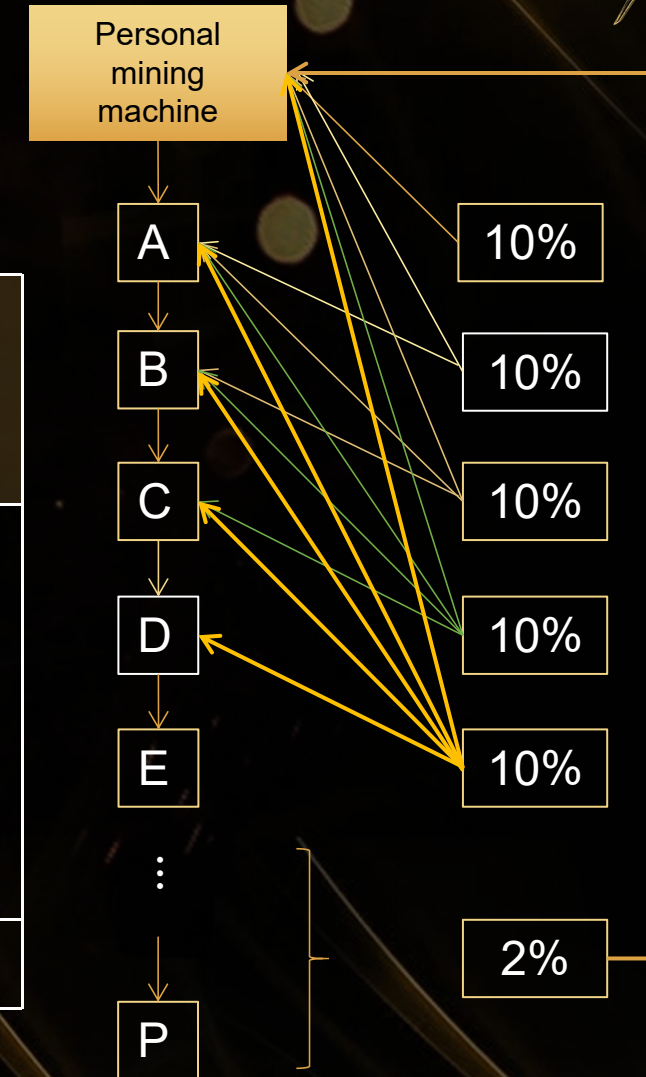

# • Recommended mining machine hashrate acceleration

Recommended	Personal mining machine computing power acceleration (daily settlement)
Recommend 1 miner to get level 1	10%
Recommend 2 miner to get level 2	
Recommend 3 miner to get level 3	
Recommend 4 miner to get level 4	
Recommend 5 miner to get level 5	
Recommend 6 miner to get level 6-15	2%

- **Social mining machine computing power accelerated**

Level	Qualifications	Total computing power accelerated
T1	250,000 U	1%
T2	3 T1	2%
T3	3T2	3%
T4	3T3	4%
T5	3T4	5%

- **EOT allocation mechanism**

Mechanism	Allocation
Cloud computing power mining	85%
T5 whole network weighted computing power	5%
TOP10 computing power ranking weighted computing power	5%
DeFi ecological computing power	5%

- **Ways to obtain fuel coin ESV**

**1) Check in every day and get ESV randomly**

**2) Contribution value gets ESV:**

- a. Activate: 3000U mining machine get 10, 5000U and above mining machine get 50;
- b. Direct recommendation: 1 set of 5000U and above mining machine get 30.

# • Top 10 reasons to choose EOT

## Ultra low threshold

Start a business with a small money at 500U

## Financial security

Smart contract guarantees that the principal is not controlled by anyone

## Super high yield

Multiple computing power acceleration

## No burns

Small push big without burn  
Speeding out of the game, reinvesting profit

## Team stability

Excellent mechanism to create a stable team

## Strong consensus

The overall momentum of the market determines revenue  
Strong consensus

## Lasting stability

Use financial tools to earn great wealth  
Backfeed members

## Decentralization

Fully decentralized operation  
Smart contract computing power settlement

## Ecological cycle

Based on Ethereum 2.0 ecology  
Multiple ecosystems develop together

## Business sustainability

Excellent top-level design  
Create a sustainable community
